# ESTRA

"Dedicated to Professionalism"

# PROMOTING PROFESSIONALISM FOR NEARLY 40 YEARS

The Empire State Towing & Recovery Association (ESTRA) was first established in June of 1980 identifying three main objectives for establishing a statewide towing association.

## Education | Legislative Advocacy | Network Development

These objectives remain at the core of ESTRA's mission today:

- To promote professionalism and safety within the towing and recovery industry.
- To educate the public and governmental representatives about the towing industry.
- To provide technical and legal support and assistance to members.
- To secure fair and competitive rates for insurance and business related services.
- To facilitate open communication and promote respect among members, police, governmental agency's, and emergency response personnel.
- To provide critical information to its members.
- To maintain effective communications between ESTRA's Board of Directors and its Members throughout New York State.
- To promote unity and a sense of community among its members, in part by offering quality educational information and training symposiums.
- To maintain the viability of the association by actively recruiting new members.

Become a trusted industry  
partner that supports the best of  
the towing industry.
